

- There are four measurements that you need to obtain from your boat. These are;
- Stern to the bow end of the companion way,
  - Width across the stern. If this measurement is greater than 2.4m, please provide measurement across the outside of the cockpit coaming at the stern end.
  - Deck to deck over the widest/ tallest part of the sprayhood
  - Stern to mast (only provide for boats with LOA 7m or less)
